

鷺鳥林普查訓練工作坊 2017

EGRETRY COUNT

TRAINING WORKSHOP 2017

香港觀鳥會
Hong Kong Bird
Watching Society

漁農自然護理署
Agriculture, Fisheries and
Conservation Department

水鳥普查是由香港觀鳥會策劃及定期匯報調查結果的專業項目。項目於一九七九年展開，由二零零零年起，獲漁農自然護理署資助全年進行，其後成為該署的合約項目。

鷺鳥林普查為水鳥普查計劃的一部份，由鷺鳥研究組進行調查，於繁殖季節統計鷺鳥繁殖地的鳥巢數量、位置、及營巢樹種等資料。

「鷺鳥林普查訓練工作坊」是一年一度的訓練項目，適合有最少一年水鳥辨識經驗的人士參與。本工作坊提供機會讓更多市民認識鷺鳥林及鷺鳥普查的技巧，從而參與鷺鳥林普查工作。參加者在直接參與和貢獻生態保育工作時，能獲得很大的滿足感。

歡迎各位參與「鷺鳥林普查訓練工作坊」！

The Waterbird Monitoring Programme is an integrated professional programme coordinated and reported by HKBWS. The waterbird counts began in 1979. Since 2000, this annual project has been funded by the Agriculture, Fisheries and Conservation Department (AFCD), and has later become a commissioned service of AFCD.

The Egretty Monitoring is a part of the Waterbird Monitoring Programme, coordinated by the Egret Research Group. It collects information including number of nests, their locations and nesting substrates of breeding egrets and herons.

The “Egretty Count Training Workshop” is an annual event designed to allow more people to participate in the egretty count, especially those with at least one year experience in bird identification. It is a good opportunity to learn the techniques required for counting the number of nests of breeding egrets and herons, and to gain the satisfaction of contributing to nature conservation!

All are welcome to participate in the “Egretty Count Training Workshop”.

語言 Language: 以廣東話為主 Cantonese

活動重點：

- 介紹鷺鳥林
- 了解繁殖鷺鳥普查的歷史
- 介紹數算鷺鳥巢的技巧
- 在兩個鷺鳥林進行實習*

Programme highlights:

- Introduction to egrettries
- History of egretty count in Hong Kong;
- Techniques of counting nests of breeding egrets and herons;
- Field practice at 2 breeding colonies*

* 請自備雙筒望遠鏡 Please bring your binoculars

鷺鳥林普查訓練工作坊
2017年4月23日(星期日)
早上9:00至下午1:00
米埔自然護理區停車場集合

Egretty Count Training Workshop
23 April 2017 (Sunday)
9:00 am – 1:00 pm
Meet at Mai Po Nature Reserve Car Park
